The Centers for Medicare & Medicaid Services (CMS) is the federal agency that oversees the Medicare program. Many Medicare beneficiaries have other insurance in addition to their Medicare benefits. Sometimes, Medicare is supposed to pay after the other insurance. However, if certain other insurance delays payment, Medicare may make a "conditional payment" so as to not inconvenience the beneficiary, and then recover after the other insurance pays.

Section 111 of the Medicare, Medicaid, and SCHIP Extension Act of 2007 (MMSEA), a federal law that became effective January 1, 2009, requires that liability insurers (including self-insurers), no-fault insurers, and workers' compensation plans report specific information about Medicare beneficiaries who have other insurance coverage. This reporting is to help CMS to properly coordinate payment of benefits among plans so that your medical claims are paid promptly and correctly.

We are asking you to answer the questions below so that we may comply with this law.
